

Another straightforward route which starts at Errwood Hall car park (SK 012 748 – Elev: 295m). Follow the reservoir road towards Pym Chair (SJ 994 766 – Elev: 475). From Pym Chair take the well marked track to Shining Tor (SJ994 737 – Elev: 559). This route is our longest within the Goyt and returns by the same route.

975 metres from Shining Tor, the blue dots indicate the Unnamed Clough which is an optional shortcut back to Errwood Hall, if you get tired or the weather turns on you in winter. It is also an interesting route anyway. See enclosed data sheet on the Unnamed Clough.
