

Thereabouts images – Wildboardclough Route 01 (anti-clockwise)

Images are arranged in route order, whether or not the images were shot on the same day. An arrow on any image indicates the shooting direction for the image concerned, when not in the direction of travel. That could be facing backwards down the trail or any other direction. This helps resolve the issue of shooting into the sun. The main purpose of this document is to capture an impression of route characteristics, so people can make choices based on the information. It is not intended to be an independent illustrated route guide or a portfolio of landscape images.
